

Hey everybody, this is Daniel Cahill and I'm the Manager at Eagle Gun Range. With our new website we wanted to start a series of post where we discuss the items and tools we carry on a daily basis. We will discuss not only what we carry but also the theory behind our choices. So to kick things off I will start.

EDC Breakdown – Daniel Cahill

I carry two firearm on a daily basis, my primary carry is a Glock 26 gen 4 9mm with trijicon HD sights. My secondary is a Ruger LCP-C in 380 acp. Next is my flashlight, which I never leave home without. I carry a Streamlight ProTac 1L which is one of the best lights I have ever used, 180 lumens with three modes is more than enough for any situation. Another thing I never leave the house without is a quality knife. I carry a H&K 14715bk which is made by Benchmade. I have carried Benchmade for about 6 years now and swear by them. Next tool I believe is essential is a good multitool. I personally carry the Leatherman Rebar because of the locking blades and replaceable wire cutters. The rest is pretty common essentials such as wallet, car keys, and phone. These are the tools that I find invaluable on a daily basis and would highly recommend all of them. If y'all have any questions about my setup or accessories feel free to swing by the shop and ask!!!

Stay tuned for more EDC Breakdowns!!!
