

EDC Breakdown – Mike Branchfield

I choose to carry a Glock 19 Gen 4, 9mm with Ameriglo classic night sights with spare 15 round magazine. The next important thing I carry on a daily basis is my knife. I carry a Kershaw, Cryo 2. Additionally I carry a Streamlight ProTac 1L which has 180 lumens and three programmable modes. I find that 180 lumens is plenty for any daily situation I'm in. The next tool I carry is a multitool. You never know when you might need a pair of pliers or a screwdriver. From there everything is common must haves, wallet, keys, phone, challenge coin. These are the essential I choose to carry on my person everyday. If you have any questions or need help deciding what you should carry stop by and see us.

Stay tuned for more EDC Breakdowns!!!
